Chief of Police Report, 1938

In submitting my report for the past year, I wish to express my appreciation for the co-operation given this department.

Having accepted the office of Chief with little experience in police work, and a limited knowledge of the laws which govern it, many of its problems have been greatly relieved by the generous advice and assistance of the State Police, other state, county and town officers, and local citizens whose help, either offered or given, has been welcome in time of need.

Many calls not listed in our report have been received and answered, some of which have gained our personal sympathy, but which after counsel, and careful consideration have not warranted police action.

Our aim has been to act impartially, not to over-step authority, to humbly recognize the responsibilities entrusted to us in a "not too pleasant" work, and render courteous service.

Arrests, 3; Court cases, 4; Convictions, 3.

Charges—1 disturbance, 30 days sentence, no fine.
1 driving under influence, fined.
1 drunk, continued, no fine.
1 leaving scene of accident, awaiting trial by Superior Court.

Report of Health Officer

FOR YEAR ENDING DECEMBER 31, 1938

At the first of the year many complaints were received of garbage being spilled on Haverhill Road by overloaded trucks, enroute to the piggery. After warning each driver and sending notice to the contractor, I communicated with the Haverhill Board and the nuisance ceased. The practice of throwing garbage, from cars, to the wayside still continues, and there seems no way to stop it except by the cooperation of all persons concerned.

There were reported during year the following cases:

Mumps	7
Whooping cough	1
Scarlet Fever	1
Measles	1
Dog bites	4
Carcasses buried	1

Report of Superintendent of Schools

To the School Board and Citizens of Newton:

It is with pleasure that I present my annual report as Superintendent of your schools.

The Statistical Report is for the school year ending June 30, 1938. This report is followed by the reports of the Music Supervisor and the School Nurse.

There has been no change in the teaching staff of our schools since my last report. The retention of able and experienced teachers for a period of years is a valuable asset to successful schools, and a source of educational economy not to be overlooked. Our teachers have all taken courses in education either during the summer or during the school year. Last summer Miss Kalashian, Mrs. Palmer, and Mrs. Knowles attended Boston University, where they took, as a part of their work, a course in Remedial Reading by Dr. Durrell. For the past two summers Miss Kelly has attended Plymouth Normal School. Mrs. Wright attended Keene Normal Summer School in 1937 and at present is taking a course in Remedial Reading by Dr. Durrell of Boston University, which is being given in Haverhill. By means of this work our teachers are keeping abreast of modern thought and practice in school matters.

The enrollment for the year covered by this report was one hundred eighteen, which was twenty-eight less than during the year previous. The school attendance averaged 96.48% of the membership, as compared with the state average of 95.13%.

There were fifteen graduates from the eighth grade last June. All but one of these have entered a high school this year. The medal given each year by the Sons of the American Revolution, to the pupil in the graduating class

of the elementary schools who has best exemplified the principles of good citizenship, was awarded to Barbara Morse. The following list shows the September enrollment of Newton pupils in High Schools:

Sanborn Seminary	29
Haverhill High School	9
Merrimac High School	2
Robinson Seminary	3
Amesbury High School	2
Total Newton pupils enrolled in high schools	45

A 16mm. Silent Motion Picture Machine was purchased by the towns of our Supervisory Union last spring for use in visual education in the schools. Films that deal with and supplement the curriculum of the school are shown. For the elementary school there are available without cost, except transportation, films dealing with health, safety, geography, history, and home making. Films have been shown on Alaska, Brazil, Philippine Islands, Denmark, Siberia, and the Sahara Desert; as well as on wheat, corn, oranges, the life of Lincoln and of Washington. Motion pictures and radio are rapidly taking a place in the schoolroom. Non-readers often learn by this means as rapidly as good readers. Teachers find that a motion picture in history or geography creates a desire to learn more about the subject. Experimentors have found that children learn from motion pictures three or four times as rapidly as by reading and they retain it longer.

The fine dental clinic held last Spring was made possible by the combined efforts of our Granges. Funds furnished by the Red Cross made it possible to provide glasses, clothing, and cod liver oil for children in need of the same.

The Metropolitan Achievement Tests are given each year in grades 1-8 inclusive. The Otis Mental Ability Tests are given in grade four. These tests help in checking school progress. They also show the need, when it exists, of addi-

tional drill in some subjects. Our tests show that good progress is being made. The teachers who have taken or are taking Dr. Durrell's course in Remedial Reading will receive assistance in solving reading problems. Mrs. Knowles has organized a group in remedial reading at Rowe's Corner School, for the pupils in grades five and six that have reading difficulties.

The Rowe's Corner building has been equipped with window screens for some time. Last summer window screens and screen doors were put on at the Junction building. In both cases the cost was paid by funds raised by the school itself. We hope that the Village School may soon have similar equipment. The Kaustine tanks used in our toilets last from ten to twelve years. Those at the Village School have been in use about ten years, and will probably not last much longer.

A curriculum in safety education has been worked out by a committee of New Hampshire educators and has been made available for each school. This will be of real help to our teachers in making education for safety more effective. Not only is safety on the highway stressed, but also safety in the home and on the playground.

During National Education Week in November, parents are urged to visit the schools. A large number of parents, especially mothers, avail themselves of this opportunity. We only wish that parents would come more often. If parent and teacher are to work together for the best development of the child, it is very necessary that they have an opportunity to meet.

In conclusion, I wish to express my thanks to the School Board for their generous support and commend the time and energy they have so generously expended for the welfare of the schools. I also commend the effective and loyal work of the teachers in guiding their pupils forward on the road to good citizenship.

Respectfully submitted,

WILLIAM J. NELSON,
Superintendent of Schools

Report of Supervisor of Music

To the Superintendent of Schools:

I herewith present my annual report as Supervisor of Music in the Newton schools.

The work in music is being continued much the same as in former years. The children have an organized course in rote singing, the songs are written within the range of the child's voice, and of simple rhythm. The elements of musical notation are taught step by step; as the children are ready for a problem it is presented to the eye on the blackboard, training the ear and eye for sight-reading.

The radio and victrola are used for the teaching of musical appreciation. An outline of the program to be presented is written on the blackboard, the teacher tells something of interest about the selection and the composer, before the children listen to the composition.

For your continued interest and helpfulness, and the hearty cooperation of the teachers, I am most grateful.

Respectfully submitted,

EVA W. THOMPSON.
